

Convenient and Fully Recyclable Packaging for Party Foods and Dips

As a manufacturer of premium party foods and dips, you need quality packaging. Our thermoformed recycled polyethylene (rPET) pots, tubs, and trays offer numerous benefits to keep your products fresh, appealing, and sustainable.

Available in up to 100% rPET and fully recyclable

Product Preservation and Protection

- **Freshness and Versatile Sealing:** Options include hinge-pack trays with resealable lids or MAP trays for use with heat-sealed lidding film.
- **Food Protection:** Preserves products through packing, transport, and handling, reducing waste.
- **High Clarity:** Excellent visibility to make products stand out.
- **Safe and Hygienic:** Meets high safety and hygiene standards.
- **Freezer Safe:** Suitable for freezing down to -18°C.

Customisation and Versatility

- **Flexible Solutions:** Single or multi-cavity options for different products.
- **Variety of Sizes and Colours:** Industry-standard sizes, colours, and depths that fit existing production lines and sealing heads.
- **Customisable Embossing:** Options for recycling instructions or braille.
- **Lightweight Yet Strong:** Reduces transportation carbon footprint.
- **High-Speed De-Nesting:** Ideal for automated production lines.

With proven experience and partnerships with top brands, trust us to deliver packaging that exceeds your expectations.

Industry standard sizes to fit existing production lines

Quality, Sustainability, and Compliance

- **BRC AA-Grade Standards:** Ensures high quality and safety.
- **Sustainable:** Made from up to 100% recycled PET.
- **Fully Recyclable Back into Food Grade rPET:** Easily recyclable through kerbside collection, encouraging confident consumer recycling habits.
- **Tax Compliant:** Meets UK Plastic Packaging Tax requirements.

Partner with us for the best packaging solutions for your party foods and dips. Our rPET containers offer freshness, convenience, sustainability, and recyclability.
